

# SUPER SIX MOTORSPORTS

**NEW PRODUCTS** specifically for 2015-up 3.7L V6 Mustang. All of our other 2011-2014 3.7 engine products also fit 2015-up

**JMS PedalMax: \$265.** Provides increase in throttle responsiveness allows engine to rev quicker, simple plug-in installation. **No tuning required.**

**3.55 / 3.73 Ring & Pinion gear kits: \$215.** Unique gears fit the new "Super 8.8" in your 2015 IRS rear suspension. Includes ring and pinion gears; pinion bearings, seals, nut; crush sleeve and bolts. Best all round gears for high performance street cars.

**Aluminum driveshaft: \$795.** Our exclusive, high-strength light weight one-piece aluminum driveshaft, fits automatics and manual 3.7's. Eliminates the failure-prone 2-piece design, lighter weight improves acceleration. Simple direct bolt-on replacement, installation hardware included. If you are going to the track or adding a supercharger or turbo, you will want one of these. Includes install hardware.

**Carbon Fiber driveshaft: \$1225.** Our exclusive, high-strength light-weight carbon fiber driveshaft, the ultimate in driveshaft technology for high horsepower/high torque nitrous or any other high horsepower/high RPM applications. Includes installation hardware. Fits automatic and manual 3.7's. Includes install hardware.

**Driveshaft Safety Loop: \$175.** Our exclusive driveshaft safety loop fits automatic and manual 3.7's. If you are running any kind of power adder, better clutch, big rear tires, you need one of these. Don't let a driveshaft failure tear up your car and affect your safety. Includes all mounting hardware and instructions.
